## SECORD LAKE ASSOCIATION

[www.secordlakeassociation.org](http://www.secordlakeassociation.org)

### EROSION EVALUATION, CONTROL AND PLANTS, PRODUCTS AND SEED MIX INFORMATION:

- ★ Following is a resource for erosion evaluation:

USDA-Natural Resources Conservation Services  
Andrew Gust, Area Resource Conservationist  
Bavarian Office Center  
810 South Otsego Ave. Suite 121  
Gaylord, MI 49735  
989-732-6526 ext. 123  
[andrew.gust@usda.gov](mailto:andrew.gust@usda.gov)

- ★ The Gladwin Conservation District has available a waterway grass seed mix. This seed quick germinating seed is perfect for areas that are experiencing erosion. The District also offers a geotextile fabric to help with erosion issues.

The waterway seed mix is \$2.00 per pound; the fabric is \$2.75 per foot. Contact their office at (989) 426-9461 ext. 5 on Mondays, Wednesdays or Fridays.

- ★ The Secord Lake Association will host Dave Rothman from FLTF during our September 19<sup>th</sup> meeting to discuss lake erosion issues. He will conduct a question and answer session. The September Secord Lake Association meeting will be held via Zoom, and is scheduled for Saturday, September 19, 2020 at 10:00am. A link to access the online meeting will be sent to all Secord Lake Association members via email, and it will also be available on the Secord Lake Association website at [www.secordlakeassociation.org](http://www.secordlakeassociation.org)

- ★ Additional erosion control, plants, products and seed information can be found on the Four Lakes Task Force website at <https://www.four-lakes-taskforce-mi.com/erosion-control.html>. The FLTF provides many resources and advice for property owners.

We encourage you to view those options and decide for yourself what you may need. The Secord Lake Association itself does not provide any specific services about erosion. Our role is to communicate relevant information regarding our lake and waterways and to act as a liaison between the Association community, local township governments and other agencies.
